ABOUT EBB

The European Biodiesel Board (EBB) is a non-profit organisation established in January 1997. The EBB gathers over 37 members across 21 Member-States, representing over 65% of the European output. Biodiesel is the main European solution to reduce emissions from transport and dependence on imported oil. The EBB promotes the use of biodiesel in the European Union and is committed to fulfil international standards for sustainability in GHG emissions and sustainable feedstock. The EBB is constantly working towards the development of improved and greener technologies.
